

Preston Memorial Hospital is part of a state-wide disaster preparedness initiative in West Virginia. When a disaster strikes, volunteers are a vital need to supplement existing emergency and medical professionals in the response. History has taught us that in cases of emergency, many people **want** to help, but because of the lack of proper credentialing of volunteers, people are not **allowed** to help.

Taking a proactive approach, PMH is working to ensure the proper credentialing of its volunteers. Regardless of whether volunteers will be utilized on a daily basis in the facility, assisting in a disaster, or assisting with prevention and education services, they **must** be pre-registered to best match the skills of the volunteers to the needs of the community.

Anyone can volunteer, and everyone is needed. To register as a volunteer with PMH, please follow these simple instructions:

- 1) Complete the easy application below.
- 2) Respond to our staff when contacted to finish the process.
- 3) Keep PMH updated when your contact information changes.

I am interested in volunteering:

Only in the event of an emergency

On a routine basis

Both

Name: _____

Address: _____

Phone: _____

Email: _____

Occupation: _____

I could be most helpful by volunteering to:
